## THE SCIENCE OF LIGHT

### FOUR CLINICAL WAVELENGTHS.

Dullness, breakouts, fine lines, sagging — every concern has its wavelength. A balanced 1:1:1:1 spectrum targets all four at the cellular level.

**415**

NM · BLUE

#### PURIFY

Calms breakouts and excess oil for clearer, smoother-looking skin.

**590**

NM · YELLOW

#### BRIGHTEN

Lifts dullness and evens tone for visible radiance and glow.

**660**

NM · RED

#### FIRM

Stimulates collagen to firm skin and soften fine lines & wrinkles.

**850**

NM · NIR

#### RENEW

Penetrates deep to renew, repair and rebuild lasting resilience.

## TREATMENT & CONTROL

### SIX INTELLIGENT MODES.

Six preset skincare programs, each a curated blend of wavelengths — selected with one touch on the handheld LCD controller.

#### 1 · REPAIRING

Red 660nm — soothe & strengthen the skin barrier.

#### 2 · REJUVENATION

Yellow + Red (590 · 660nm) — revive tired, dull skin.

#### 3 · ANTI-AGING

Red + NIR (660 · 850nm) — firm & smooth fine lines.

#### 4 · MORNING SKINCARE

Yellow + Red + NIR — brighten & energize for the day.

#### 5 · ANTI-ACNE

Blue 415nm — purify & calm breakout-prone skin.

#### 6 · BEDTIME SKINCARE

Timed cycle — 590 · 660+850 · 415nm before sleep.
